

Letter of Support

Organized by Oppland Media, **Civil Helicopter Southeast Asia Summit 2014** will be held on Nov. 19th-20th in Kuala Lumpur, Malaysia. This summit will be gathering over 300 local and international Helicopter fellows for pre-scheduled B2B meetings with offshore operations, law enforcement, and Emergency Medical Services (EMS) vendors in the conference. Offshore Helicopter & EMS application, pilots training, MRO and leasing will be the important issue we are going to discuss in the conference.

We are pleased to inform you to that AHS International is one of the Supporting Organizations of the summit. For the common goal of promoting the development of the helicopter industry, we believe together with Oppland, we will make more contributions and CHSA 2014 will be a perfect occasion to capitalize on the fast expanding helicopter opportunities in South East Asia, strengthen your leadership branding, gain visibility and increase market awareness, demonstrate your product value proposition and develop partnerships with key local prospects.

About AHS International

AHS International – *The Vertical Flight Technical Society* – is the world's only international technical society for engineers, scientists and others working on vertical flight technology. We bring together industry, academia and governments to tackle the toughest challenges in vertical flight. Since being founded in 1943 as the “American Helicopter Society,” we have led technology, safety, advocacy and other initiatives, and have been the primary forum for interchange of information on vertical flight technology. We are the global resource for information on vertical flight technology. Visit www.vtol.org for more information.

We look forward to warmly welcoming you to Civil Helicopter Southeast Asia Summit 2014!

Michael J. Hirschberg
Executive Director
AHS International
